

MARKET INTELLIGENCE

A 360° view of key digital markets and emerging trends

MARKET INTELLIGENCE

CONNECT TO THE TRENDS OF TOMORROW

Our **Market Intelligence Programme** delivers an international view of today's outstanding tech disruptions, for both the ICT industry and traditional sectors in the throes of a digital transformation.

KEY AREAS OF EXPERTISE

- Market analysis (competition, demand)
- Understanding regulation
- International coverage
- Technological expertise
- Special focus on innovative players
- Economic modelling

Our reports thus provide our readers with a concise state of the art of today's markets, along with estimates and forecasts for **the next five to ten years!**

6 THEMATIC COLLECTIONS

THE OBSERVATORY OF INNOVATION MARKETS

Access nearly **200 deliverables** including **50 new publications per year** including granular quantitative data, benchmark reports, indepth analysis reports and briefs notes on hot topics in the news.

FTTX & GIGABIT SOCIETY

WIRELESS 5G

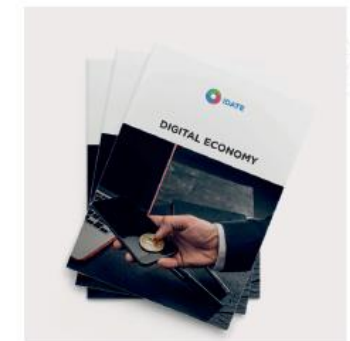

FUTURE TV & DIGITAL CONTENT

ENABLING DIGITAL TECHNOLOGIES

SMART VERTICALS & IOT

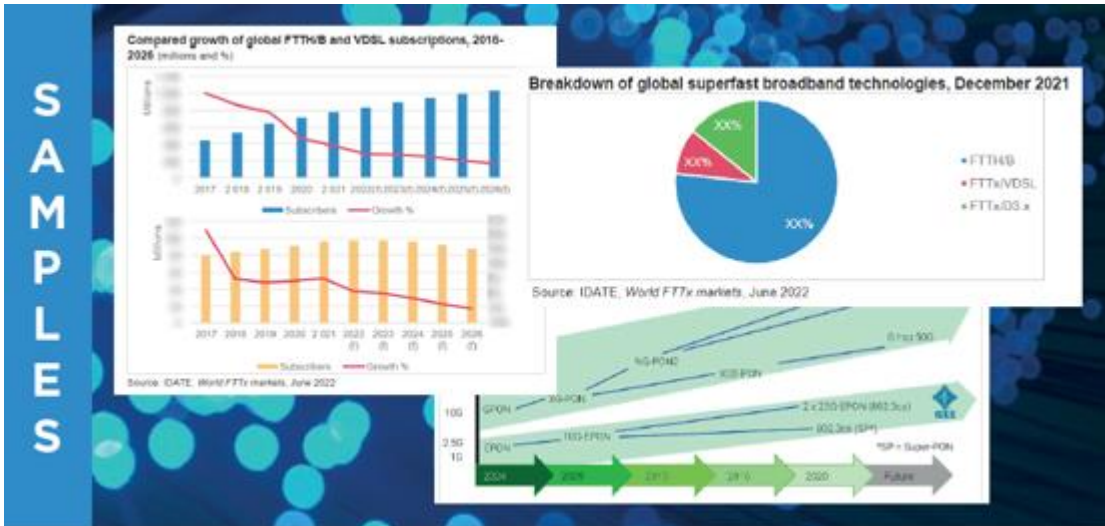

DIGITAL ECONOMY

WORLD REFERENCE – FTTH COUNCIL

FTTx, xDSL, Cable/DOCSIS, Regulation, Wholesale, SDN/NFV, Funding of PPP, Copper Switch off

KEY QUESTIONS & AREAS COVERED

- Can superfast mobile technologies provide a solid alternative to FTTx in developing countries?
- What new business models are telcos adopting to monetise their FTTH networks? What role are wholesale operators playing?
- Does the deployment of G.Fast solutions change the way new FTTH networks are deployed?
- Will 5G be a complement to or competitor for FTTx?
- Do FTTH networks bolster the development of convergent services?
- What role can and should government and regional bodies play in FTTH network development?
- ...

TRANSITION TO OTT MARKETS

TV & OTT video market dynamics, Video games, Media regulation, Players' strategies, Innovation & Technology

KEY QUESTIONS & AREAS COVERED

- Are publishers' and producers' national and pan-European syndication strategies an effective response to the massive success of international OTT services?
- Will hybrid models be the new paradigm for OTT video services?
- Can telcos still win the content battle?
- Will web giants dominate the entertainment segment in the future?
- Is regulation fully responding to the new challenges for local media players?
- How do technological innovations (extended reality, blockchain, artificial intelligence, metaverse, 5G) impact content markets and players?
- ...

DEEP DIVE ON 50+ USE CASES 360° MARKET ANALYSIS (DEMAND AND SUPPLY MARKET)

**Cellular M2M, including 5G and LPWA,
vertical IoT markets, IoT Platforms, Telcos strategies**

KEY QUESTIONS & AREAS COVERED

- What qualitative and quantitative opportunities are opening up for IoT in vertical markets? How are the automotive (notably autonomous car), health, farming, smart building, transport and logistics segments developing?
- What are the main use cases in each vertical market?
- What are the key markets for solution providers (hardware, connectivity, platforms and services)?
- Who are the key IoT ecosystem's players? How are telcos positioning themselves, beyond M2M markets?
- What is driving IoT adoption in the different vertical markets?
- ...

Upcoming publications*

BUSINESS ASSISTANCE TO R&D PROJECTS & START-UPS

Artificial Intelligence, Blockchain, Robotics, Quantum Computing, Edge computing, 6G

KEY QUESTIONS & AREAS COVERED

- What will be the key technologies by 2030?
- How will future technologies (robotics, deep learning, quantum computing) bring concrete benefits to different sectors and impact current business models?
- Will the GAFAMs maintain their leadership? How will industrial sectors players position themselves in the age of artificial intelligence?
- When will extended reality technologies (augmented reality, virtual reality, mixed reality) be truly adopted?
- To what extent will future mobile infrastructures (edge computing, slicing, 5G) be catalysts for accelerating digital transformation?
- ...
